### **The Western Sahara is not for sale**

A last betrayal from Donald Trump, future ex-President of the United States.

After having sold Jerusalem to Israel, denied the nuclear disarmament agreements, withdrew the US contribution to the UNESCO, the UNWRA and the WHO, after trying to destroy the Obama Care ... Donald Trump, as the absolute sovereign he's still persuaded to be, now grants sovereignty to Morocco over Western Sahara in return of King Mohammed VI's treason regarding the Palestinians.

Therefore, M. Netanyahu and the King of Morocco think they move their pawns regarding their annexationist projects over Palestine and Western Sahara. So MM. Trump, Netanyahu and Mohammed VI trample on the inalienable and sovereign rights of both people today militarily occupied, colonized, repressed and deprived from their natural resources.

Due to the UN failures and carelessness to enforce the international right, the right to self-determination of both the Western Sahara and Palestinian people, the Front Polisario recently denounced the peace agreements supervised by the UN with Morocco back in 1991. The Front decided to defend itself by armed struggle as the only way to express the most legitimate aspirations of the Sahrawi people. It reinforces its right to self-determination, to its freedom and its emancipation hope from colonial powers imposed by Morocco, along with Spain complicity.

In order to guarantee the rights of those people, as well as peace and security in the Mediterranean area, there is an urgent need for the European countries, concerned about respecting the international standards, to recognize once and for all the states of Palestine and Western Sahara, as already did the African Union, the regional reference authority.
